Crestview Mutual Water Company Board of Directors - Board Meeting <u>TUESDAY, MAY 27, 2025, AT 5:30 P.M.</u> <u>Hampton Inn</u> <u>50 W. Daily Drive, Camarillo CA 93010</u> AGENDA

1. CALL TO ORDER: REGULAR MONTHLY BOARD MEETING AT 5:30 P.M

2. SHAREHOLDERS' PUBLIC FORUM

- Shareholders that wish to address the Board may speak for up to the agreed upon minutes on matters within the jurisdiction of the Board. With limited exceptions for brief responses and emergency matters, please recognize that the Board cannot discuss or act on matters that are not on this Agenda.
- > If you have a question that Staff can answer, please email, or call Crestview at any time.

CONSENT AGENDA

- 3. MINUTES
 - > Board Meeting: Open Session and Executive Session Meeting Minutes March 25, 2025 and April 29, 2025

ACTION ITEMS

- 4. CROSS CONNECTION CONTROL PLAN
 - > Review for Approval: Draft Authorization for Enforcement of the Cross-Connection Control Plan
- 5. LINE OF CREDIT RENEWAL
 - > Approve Renewal of \$500K Line of Credit (Previously \$250K) Based on Staff Recommendation

INFORMATION ITEMS

- 6. WATER SUPERINTENDENT'S REPORT
- 7. MANAGER'S REPORT
- 8. TREASURER'S REPORT
 - Report on Monthly Draft Financial Statements
- 9. PRESIDENT'S REPORT
 - ➢ Well 7 Site Selection Update

10. ADJOURNMENT OF REGULAR MONTHLY BOARD MEETING

- 1. CALL TO ORDER EXECUTIVE SESSION IMMEDIATELY AFTER CONCLUSION OF OPEN SESSION
- 2. EXECUTIVE SESSION
 - Personnel Issues
 - Legal Matters
 - ➢ Well #7 Site Selection
 - Third-Party Contracts
- 3. ADJOURNMENT OF EXECUTIVE SESSION

Minutes of the Meeting

of the Board of Directors of Crestview Mutual Water Company March 25, 2025

1. Convened Public Meeting

The meeting was called to order by President Dave Stephenson on Tuesday, March 25, 2025, at 5:32 p.m. for an in-person meeting at the Hampton Inn, 50 W. Daily Drive, Camarillo, CA.

Attendance and Quorum

| Directors Present: | Dave Stephenson – President Laurie Bennett – Treasurer Steven Muro – Secretary Frank Mezzatesta – Director |
|------------------------|--|
| Directors Absent: | Alma Quezada – Vice President |
| Staff/Counsel Present: | Durrell McAdoo – Water System Superintendent Ann DeMartini – Business Consultant Lauri Marino – Office Manager |

2. Shareholders Public Forum

Shareholder Ed Atsinger inquired if a location has been chosen for Well #7. Director Dave Stephenson noted that he will address this in his President's report. Another question was asked regarding water treatment using chloramines, a combination of chlorine and ammonia. Discussion ensued; chloraminated water is produced differently and Crestview's system is not currently set up to deliver chloraminated water to shareholders.

CONSENT AGENDA

3. Minutes

The minutes of the Regular Meeting and Executive Session of the Board of Directors of February 25, 2025 were presented. On a motion made by Director Laurie Bennett and seconded by Director Steven Muro, the Board approved with four ayes the following:

Resolved, the minutes of the Regular Meeting and Executive Session of the Board of Directors of February 25, 2025, be accepted as presented.

INFORMATION ONLY

4. Operations Report

Superintendent Durrell McAdoo reported that the clean up Well #6 is in process. Operations Staff are conducting winter operations. Annual hydrant maintenance and valve turning are in process. Discussion ensued regarding the water quality at Well 5.

5. Business Manager's Report

Business Manager Ann DeMartini reported that the County will cease keeping track of cross-connections within Crestview's service boundaries. Crestview is small enough to contract this task out. Ms. DeMartini and Superintendent McAdoo are working together to identify what to keep in house and what can be outsourced. Compliance takes effect July 1, 2025; at that time, a plan must be submitted. There are 109 devices installed in the district. Discussion ensued; it was determined that more information is needed. This topic will be brought back in April and May for further discussion.

Ms. DeMartini reported on the upcoming annual shareholder's meeting. The date has been pushed out to to determine the suitability of using an online voting system. Discussion ensued; if needed, Crestview can utilize a third party election inspector.

6. Treasurer's Report

Treasurer Laurie Bennett reported on the financial statements for February 2025. Ms. Bennett noted that Calleguas water was purchased earlier in the year than usual, at a higher volume due to dry weather. Lindsay & Company CPA has completed their review, and the financials will be made available on Crestview's website shortly.

7. President's Report

President Dave Stephenson reported on the status of confirming a location for Well #7. Cannon Engineering is engaged to complete their study in May; we are about two months behind the schedule shared in late 2024. The three sites, 191 Alviso Drive, 640 Fairway Drive, and the Las Posas Country Club are currently being assessed by Cannon. Their study will include site analysis, costs, water quality, and impacts on local residents. An indemnity agreement for residents within 600 feet is in process with Crestview's corporate counsel. Considerable discussion ensued. President Stephenson affirmed that the Board needs to satisfy all the shareholders and do what is best for everyone, not just a few shareholders. It was agreed that the analysis with Cannon should be expedited if possible.

8. Adjournment

On a motion made by Director Frank Mezzatesta, seconded by Director Laurie Bennett, and approved with four ayes, the regular meeting was adjourned at 6:34 p.m.

Call to Order – Executive Session at 6:51 p.m.

1. Executive Closed Session

The Board in Executive Closed Session discussed the following matters:

- Personnel Matters The Board approved 9% of CY2024 salaries for the employer funding of Crestview's 401(k) plan.
- Legal Matters No decisions were made; nothing to report.
- Well #7 Site Selection No decisions were made; nothing to report.
- Third-Party Contracts The Board authorized Dave Stephenson to choose between two of the three contract proposals for information technology consulting services, which excludes SCADA. A correction was approved for the executive session minutes from the December 13, 2024 Board meeting.

2. Adjournment of Executive Session

On a motion made by Director Frank Mezzatesta, seconded by Director Laurie Bennett, and approved with four ayes, the Executive Session was adjourned at 8:39 p.m.

Shareholders in Attendance:

Ed Atsinger Roger Chittum Charles O'Dell Kelly O'Dell Christopher Ono

Subject: Recommendation to Adopt Resolution for Authorization for Enforcement of the Cross-Connection Control Plan

Dear Board Members,

I am writing to recommend that the Board of Directors adopt the resolution, titled "Authorization for Enforcement of the Cross-Connection Control Plan." This resolution is critical to ensuring compliance with the California State Water Resources Control Board's (SWRCB) Cross-Connection Control Policy Handbook (CCCPH), effective July 1, 2024, and to protecting the health and safety of our 630 service connection customers by safeguarding our potable water supply as the County of Ventura is no longer overseeing this program.

The resolution authorizes the Company to implement and enforce its Cross-Connection Control Plan, due to the SWRCB by July 1, 2025. The plan addresses state-mandated requirements to prevent contamination from cross-connections through hazard assessments, backflow prevention assembly (BPA) testing and maintenance, customer notifications, and enforcement measures, including potential water service disconnection for noncompliance. The resolution grants authority to conduct assessments, maintain BPA inventories (currently 108 BPAs), issue notices, and take corrective actions, all in alignment with the CCCPH and Ventura County Environmental Health Division requirements.

Adoption of this resolution is necessary to:

- Comply with state regulations and avoid penalties or liability.

- Provide clear authority for enforcement actions, ensuring timely customer compliance with BPA testing, repairs, and hazard assessment surveys.

- Uphold our commitment to public health by preventing water supply contamination.

- Ensure audit readiness for SWRCB and Ventura County reviews through robust recordkeeping and reporting.

The resolution includes provisions for customer support, such as distributing an introductory letter prior to July 1, 2025, for which a letter is already drafted, providing resources to locate certified BPA testers, and maintaining a transparent tracking system. It

also delegates authority to the General Manager or Board President to oversee enforcement while ensuring fairness and compliance with all applicable laws and the Company's Bylaws.

I urge the Board to review and adopt this resolution on May 27, 2025, to enable the Company to meet its regulatory obligations in a timely manner and protect our community's water supply and to incorporate the resolution into the plan to be submitted to the SWRCB by July 1, 2025.

Draft Board Resolution No. 2025-1

Authorization for Enforcement of the Cross-Connection Control Plan

Crestview Mutual Water Company, a California Nonprofit Mutual Water Company

WHEREAS, Crestview Mutual Water Company, a California Nonprofit Mutual Water Company (hereinafter referred to as "the Company"), operates a public water system serving 630 singlefamily residential connections in Ventura County, California, and is committed to protecting the health and safety of its customers by ensuring the integrity of its potable water supply; and

WHEREAS, the California State Water Resources Control Board's (SWRCB) Cross-Connection Control Policy Handbook (CCCPH), effective July 1, 2024, mandates that all public water systems develop and implement a Cross-Connection Control Plan to prevent contamination from cross-connections, with said plan due by July 1, 2025; and

WHEREAS, the Company has developed a Cross-Connection Control Plan that includes provisions for conducting initial and ongoing hazard assessments, maintaining an inventory of backflow prevention assemblies (BPAs), ensuring annual testing by certified testers, requiring timely maintenance, repair, or replacement of BPAs, and monitoring compliance through customer notifications, all in accordance with the CCCPH and Ventura County Environmental Health Division requirements; and

WHEREAS, effective enforcement of the Cross-Connection Control Plan is necessary to comply with state regulations, protect public health, and avoid penalties or liability, requiring the Company to have clear authority to implement corrective actions, issue notices, and, if necessary, discontinue water service for noncompliance; and

WHEREAS, the Company's Board of Directors recognizes that the CCCPH allows for enforcement measures, including but not limited to noncompliance notifications, shutoff notices, and water service disconnection, to ensure adherence to the plan's provisions, such as timely BPA testing (within 10 days of test date), repairs (within 14-60 days depending on hazard level), and submission of hazard assessment surveys (within 30 days); and

Draft Board Resolution No. 2025-1

WHEREAS, the Board of Directors desires to formally authorize the Company to enforce the Cross-Connection Control Plan to uphold its commitment to safe drinking water and regulatory compliance;

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of Crestview Mutual Water Company hereby authorizes and directs the Company to enforce all provisions of its Cross-Connection Control Plan, as follows:

- 1. **Authority to Implement and Enforce**: The Company, through its designated officers, employees, or contracted agents, is granted full authority to implement and enforce the Cross-Connection Control Plan, including but not limited to:
 - a. Conducting initial hazard assessments by July 1, 2026, and ongoing assessments on a 6-year cycle for all 630 connections, as outlined in the plan.
 - Maintaining an inventory of backflow prevention assemblies (currently 108 BPAs) and requiring annual testing by testers certified by ANSI-accredited or SWRCB Division of Drinking Water (DDW)-recognized organizations.
 - c. Ensuring testers use accurate, annually calibrated field test kits and submit test results to the Company within 10 days of testing.
 - d. Requiring customers to complete maintenance, repair, or replacement of BPAs within 14-30 days for high-health-hazard connections and 30-60 days for low- to moderate-hazard connections, as identified through assessments or testing.
 - e. Issuing customer surveys for hazard assessments and requiring responses within 30 days.
- 2. Enforcement Measures: To ensure compliance, the Company is authorized to:
 - a. Issue written notifications, including reminders, noncompliance letters, and shutoff notices, to customers who fail to meet plan requirements, such as submitting survey responses, test results, or completing BPA repairs.
 - b. Follow an enforcement timeline consistent with the plan, including:
 - i. Reminder notices within 14-20 days of initial notification for non-response or noncompliance.
 - ii. Noncompliance letters with a 30-day deadline for corrective action.
 - iii. Shutoff notices issued 7-10 days prior to potential service disconnection for unresolved issues.
 - iv. Disconnection of water service after 37-45 days of noncompliance, with immediate notification of reinstatement steps upon resolution.

Draft Board Resolution No. 2025-1

- c. Report BPA test results, including failures, to the Ventura County Environmental Health Division (VCEHD) via the Citizen Access portal within 10 days, as required.
- 3. **Customer Support and Communication**: The Company shall provide resources to facilitate compliance, including:
 - a. Distributing an introductory letter prior to July 1, 2025, to inform all 630 service connection customers of the plan's requirements, as detailed in the Company's communication plan.
 - b. Offering information for a list of certified BPA testers.
 - c. Maintaining an Excel-based tracking system to log BPA tests, notifications, and compliance status, ensuring transparency and audit readiness for SWRCB and VCEHD reviews.
- 4. **Recordkeeping and Reporting**: The Company shall maintain records of all hazard assessments, BPA tests, notifications, and enforcement actions for a minimum of 10 years, as required by the CCCPH, and submit annual compliance reports to the SWRCB's Division of Drinking Water by July 1 each year, beginning in 2025.
- 5. Delegation of Authority: The Board authorizes the General Manager, Water Superintendent or Board President to oversee enforcement activities, including signing notifications, coordinating with VCEHD, and approving service disconnections, with discretion to extend deadlines for customers demonstrating good-faith efforts to comply, provided public health is not compromised.
- 6. **Compliance with Laws**: All enforcement actions shall adhere to the CCCPH, California Water Code, Ventura County regulations, and the Company's Bylaws, ensuring fairness, due process, and protection of customer rights.

BE IT FURTHER RESOLVED that this resolution shall take effect immediately upon adoption and shall remain in force until amended or repealed by the Board of Directors.

BE IT FURTHER RESOLVED that the Secretary is directed to certify this resolution and include it in the Company's official records, with a copy incorporated into the Cross-Connection Control Plan submitted to the SWRCB by July 1, 2025.

Draft Board Resolution No. 2025-1

ADOPTED this _____ day of _____, 2025, by the following vote:

AYES: NOES: ABSENT:

Dave Stephenson, President

ATTEST:

To: The Board of Directors

From: Ann DeMartini, Interim General Manager

Recommendation for the Renewal of Line of Credit

I am writing to recommend the renewal of Crestview Mutual Water Company's line of credit (LOC) with Banc of California. The current line of credit was \$250,000, and per the recommendation of the Finance Committee, an increase to \$500,000 was recommended. The increase to \$500,000 for the LOC was approved by the Banc of California. Our LOC is up for renewal. I propose that we renew the line of credit for the increase level of \$500,000 and same terms. The renewal term ends May 15, 2026 which is now on an annual basis rather than a semi-annual basis due to our improved financial conditions.

Terms: Interest is variable based on the Wall Street Journal Prime Rate currently 7.5% per annum and will not go lower than 5% or more than the maximum rate allowed by applicable law calculated on the 365/360 basis. Payment if any, is due in one payment by May 15, 2026, plus accrued interest. Accrued interest on the loan, if any, is due monthly beginning June 15, 2025, with subsequent payments due monthly on the same day of each month.

Rationale:

The line of credit is in place as a prudent financial strategy for Crestview. It serves as an important safety net, ensuring we have access to capital in an emergency or unexpected financial need.

Financial Considerations:

Crestview has a strong record of accomplishment of responsible borrowing and timely repayment. Crestview's financial position remains strong. There is a nominal and standard line of credit renewal fee associated with the renewal and the fees are less since we are on an annual renewal basis.

Recommendation:

I recommend that the board authorize the renewal of our \$500,000 line of credit with Banc of California for an additional term. I further recommend that the board authorize the President, and Vice President to execute the line of credit "Change in Terms Agreement" bank forms on behalf of the company.

BOARD OF DIRECTORS STAFF REPORT

| DATE: | May 27, 2025 |
|--------|--------------------------------------|
| TOPIC: | WATER SYSTEM SUPERINTENDENT'S REPORT |
| FROM: | DURRELL P McADOO, SUPERINTENDENT |
| TO: | CRESTVIEW BOARD OF DIRECTORS |

Recommendation: To receive and file the monthly Water System Superintendent's report. For informational purposes only.

Background/Analysis: Below is a list of activities and conditions that Staff encountered associated with the Crestview water system since the last Board Meeting.

The Consumer Confidence Report (CCR) has been completed and will be sent out with the May water billing.

Work is still being done to complete the Cross Connection Plan, which is due on the first of July.

Wells 4 and 6 are meeting the demands of the system.

Currently staff is moving forward with the pressure control maintenance program. During this time, people will not experience any disruption in service. The practice allows Staff to ensure the operability of all the control valves within the system. It also pinpoints any valves that need to be replaced. Those will be in the budget for the upcoming year.

A 25' dumpster has been ordered, and the burned materials will be wrapped and placed in the dumpster for debris removal at Well 6.
